Dear Gray M.D.

Dear Sir,

Your favor of 23rd is at hand and the wood cuts referred to have also been received. It will be much better to have them all together. With regard to cuts 339, 340 in "Lessons", which you say are faulty, and require to be redrawn & cut, we are desirous that the books should be as correct as possible, and leave it with yourself to give the necessary order for that purpose.

Yours very truly,

Ivison, Phinney & Co

P.S. We are making up our Educational Circular & propose devoting two pages to the Botanic. If you have any suggestions to make, we shall be glad to have them. We intend that our page should be occupied by testimonials & the other by wood cuts & autographs of some of the more prominent Educators who have commended your works.
